

CSE3002 – IWP – DA1

- 1) Create a small game using HTML and Javascript.
 - a. The game needs to be unique for everyone.
 - b. You can use https://www.w3schools.com/graphics/game_intro.asp for reference.
 - c. Do not copy the games from net.
 - d. Any copied material from the net or friends will be marked zero.

(or)

- 2) Create unique animations using CSS3.
 - a. The animation that you create should be unique.
 - b. You can use <https://www.mockplus.com/blog/post/css-animation-examples> as reference.
 - c. Do not copy the exact animation. Apply it uniquely.

Marks will be given based on creativity and uniqueness of the assignment.

Your assignment is your responsibility. Do not share your assignments, passwords or laptops.
Everyone with a copied assignment (including the creator) will get zero.
